

Introducing NEC Contracts in Australia

Video Conference Wednesday 2 June 2021 1.00-2.30pm AEST

The NEC4 Suite of Contracts builds upon the success of the NEC3 Contracts. The NEC Contracts have been updated and streamlined following feedback from the industry, considering Government priorities and emerging best practice. The result is a contract suite with improved flexibility, clarity and which is easier to use. NEC4 enables users to deliver projects on time, on budget and to the highest standards.

NEC in Australia — the Y Clauses

The new Y(AUS) clause will help the increasing number of users in Australia bring NEC4 contracts into line with local contract legislation. It will make NEC4 contracts comply with the various state and territory security-of-payment laws. The clause will have separate provisions depending on where the work, service or supply is carried out, so that in any one contract only some parts of the clause will apply.

NEC at Sydney Water — the Case Study

Sydney Water, Australia's largest water and wastewater services provider, has adopted NEC4 contracts for its new collaborative enterprise model for delivering up to AU\$4 billion of construction works and services between 2020 and 2030. It is the country's first major infrastructure provider to use NEC as its standard procurement route.

Whether you develop or manage Buildings, Roads or Utilities Contracts, this session will be of value to you

Who should attend?

- ◇ Procurement, Supply Chain, Commercial, Contract Officers/Managers
- ◇ Financial and Operations Officers/Managers
- ◇ Project Managers
- ◇ Agency Directors and Managers
- ◇ Project Engineers
- ◇ Program Assurance Officers

What you will get out of participation:

- ◇ How the NEC4 has been updated to suit the Australian Market and local contract legislation
- ◇ How to implement an integrated range of design, construction, maintenance and facilities management services
- ◇ How to deliver program savings in the order of 5-10% annually
- ◇ Hear how to deliver projects on time, on budget and to the highest quality
